

SFY2019 Delaware River WRAPS Nutrient Management Project Application

P.O. Box 130, Wetmore KS 66550

watershed@delawarewraps.com

785-284-3422

To be considered by Delaware River Watershed Restoration and Protection Strategy (WRAPS), please fill out the information below. Email or print and mail the completed application form to the email or P.O. Box address above.

Project Proposal for Financial Assistance

Date: _____

Landowner: _____

Questions? Need help?

Mailing Address: _____

The WRAPS Coordinator can help you complete this application. See contact information above.

Phone # _____ Email Address: _____

Is project being requested by Landowner? YES or NO: _____

Person Requesting Assistance (if not landowner): _____

Mailing Address: _____

Phone # _____ Email Address: _____

County in which project is located: _____

Priority Areas & Project Eligibility

HUC (Hydrologic Unit Code) - if known: _____

Delaware WRAPS cost share is limited

Legal Description where project will be installed: _____

to designated priority areas. Contact the

Distance to & name of nearest water body-if known: _____

WRAPS office for further information.

Project Description (describe the Nutrient Management Practices to be implemented and desired outcome):

Please Include a Map

Include a map showing the location of your proposed project. The WRAPS Coordinator can assist you with this process.

Practices & Cost Share Rates

Contact the WRAPS Coordinator for information on eligible best management practices and current cost share rates.

Water Quality Benefit (what water quality problems will this project address?):

Project Costs and Funding Sources of Cost Share

Indicate the proposed nutrient management practices to be implemented (i.e. grid sampling & variable rate nutrient application and/or subsurface application of phosphorus), the number of acres planned and the estimated cost per acre. Also identify any other financial assistance to be received for implementing this project.

Proposed Nutrient Management Practices	Estimated No. of Acres	Estimated Cost per acre	Total Cost	Delaware WRAPS Requested	Expected Landowner Match	Funds from other sources Additional

Name of Service Provider who will perform the proposed practices: _____

Mailing Address: _____

Phone # _____ Email Address: _____

Nutrient management practices must be installed on cropland in a designated priority area to be eligible for cost share.

Answer Yes or No for the crop field(s) where the practices will be installed:

- Have any of the fields been sodbusted (i.e. converted from grassland to cropland) after 1985?
- Are you currently using a continuous no-till residue management system? If no, please describe the type of tillage system being utilized (e.g. minimum tillage, conventional tillage): _____
- Are you currently using cover crops with your residue management system?

Please answer the following questions regarding prior experience with the proposed nutrient management practices:

- Have you used any of the proposed practices in the past (Yes or No)? If yes, describe the practices that were utilized and when (month/year) used: _____

How will you assist with public awareness and education related to your project? (check all that apply):

- Post a sign at your site identifying project & funding
- Visit with neighbors about your project and/or give testimonials
- Speak at a field day or tour about your project
- Host a field day or tour at your farm to showcase the project
- Attend workshops, field days or tours hosted by the sponsoring agency/county
- Other (please explain) _____

Please sign and date below to verify that you wish to apply for cost share through Delaware WRAPS and that all information provided is accurate.

Signature _____ Date _____

What happens after I send in my application?

Delaware WRAPS funding decisions are made by a Stakeholder Leadership Team (SLT) comprised of local producers & natural resource professionals. The SLT meets every 6-8 weeks and you will be notified of the status of your funding request after SLT review. If approved, you will receive a contract that you will sign and return to the Delaware WRAPS. You will be responsible to arrange for technical support, hire necessary contractors to complete your project by the contract deadline and document all project costs. It is up to you to notify the Delaware WRAPS when the project has been completed in compliance with all contract requirements and to submit your receipts for all project costs. The cooperator will be reimbursed for the approved WRAPS funding as shown in the contract, or the agreed upon percentage of actual costs, whichever is less.
